November 23, 2021

Dear Cincy Families,

The District had four students who has tested positive for COVID-19 since November 17. As a result, two of our grade 6 classrooms and one grade 1 classroom were required to quarantine. We also had an adult test positive which required some of our high school and middle school students to quarantine.

The county Health Department was the lead agency with all contact tracing and provides quarantine orders. They also took the lead role in any further steps that may be necessary, such as contact tracing and additional testing. In the event that you are contacted by a health department representative, we encourage you to offer your complete cooperation. Our role is to share contact information and we notify families that the County Health Department will be calling and issuing quarantine orders. We also remain in regular contact with each health department official regarding COVID-19 related issues.

I trust that you understand we can’t provide any additional information about these students due to confidentiality and privacy constraints. We have implemented numerous health and safety protocols throughout our school building to help prevent the spread of COVID-19.

I hope that you are able to enjoy your family and friends during this Thanksgiving.

Sincerely,

Todd M. Freeman
