December 15, 2020

Dear Cincy Families,

For the last few weeks, we have been making daily schedule adjustments within the building to provide adequate coverage for our classrooms. Substitute teacher aides, teaching assistants, and teachers are becoming more and more scarce. As a result, we will be transitioning to remote learning for students in grades 5 - 12. Students who attend all day BOCES programs or CTE programming should plan to attend as scheduled unless you receive orders to quarantine. Students in grades UPK - 4 will remain with In-Person learning.

We are planning to open our classrooms and return to In-Person learning for all students UPK - 12 on Monday, January 4, 2021.

Please continue to practice social distancing, wear masks in public, and engage in practices that will help us all to remain safe and utilizing in-person learning in our schools, which are some of the safest places to be in this time of COVID.

We will continue to use our social media resources, school messenger, and our website to post new information as the need arises.

Sincerely,

Todd M. Freeman
