September 2019

If you intend to provide instruction at home for the 2019-2020 school year, please contact a Andrea Dawson at 863-4069 or by email at [adawson@cc.cnyric.org](mailto:adawson@cc.cnyric.org) . We have made arrangements for OCM BOCES to manage all families that are choosing the home school option for the 2019 – 2020 school year.

OCM BOCES staff will assist you in complying with the regulations established by the New York State Commissioner of Education. Regulations were adopted to ensure that all children in our district receive instruction that is at least equivalent to that being offered to children of the same age and achievement level enrolled in our district programs.

Enclosed are the guidelines for Home School Procedures and Home Instruction Review to assist you in complying with the Commissioner's Regulations regarding home instruction. You should submit all records, including Individual Home Instruction Plans, Quarterly Reports, and an Annual Assessment for each child to the OCM BOCES staff. They will review your documents to insure that they comply with the regulations. If their findings indicate noncompliance, they will notify you specifically of what you need to do to bring them into compliance.

I know that in assuming total responsibility for your child's education you want to provide the best experience possible. I encourage you to contact them should you have questions regarding curriculum, testing or future plans.

Sincerely,

*Todd M. Freeman*
